

→ **Communication technician**

Centre d'Estudis Avançats de Blanes (CEAB-CSIC)

We are looking for a **communication technician** for the LIFE RESQUE ALPYR project (2022-2026), an international conservation project focused on improving the conservation status of the high mountain aquatic environments in the Pyrenees and the Alps. The project will continue the work carried out in two previous projects: LIFE LIMNOPIRINEUS (www.lifelimnopirineus.eu) and LIFE BIOAQUAE (www.bioaquae.eu). The tasks to be developed will be those of coordination and execution of the dissemination and communication of the project, including the website and social networks, newsletters, press releases, etc.

Requirements: Degree in communication sciences, biology or environmental sciences and preferably a master's degree in scientific communication. Experience in scientific communication, knowledge of English and Catalan and good skills for team work are essential.

Contract: The contract we offer is part-time starting after 1/3/2022 for a year extendable up to five or until the end of the project (December 2026). The job will be at the Centre for Advanced Studies of Blanes (CEAB-CSIC), with occasional trips to the project execution area.

Delivery date: Candidates should send their CV, a letter of motivation and letters of recommendation **before 15/2/2022** to lifelimnopirineus@ceab.csic.es.
